

# SIS + ERP expertise from implementation through adoption

---

Get comprehensive support to succeed  
at every stage.

Anthology Services for SIS and ERP guides your Anthology® Student journey from initial deployment through solution optimizations while also providing comprehensive resources and innovative tools to drive adoption and excellence across your institution.

## Seamless implementation, driven by experts

INCLUDED WITH CORE

Partner with our team of consultants for solution deployment and onboarding. We will assist you throughout the process, including data migration and integrations, to ensure that your SIS + ERP aligns with your processes, technologies, strategic goals, and overall ecosystem.

### Implementation includes:

- Project management
- Automated testing
- Financial aid automation
- Student analytics
- Anthology Academy

*“Anthology has really been there with us every step of the way as we have been working through this aggressive timeline. They have been guiding us. They’ve been supportive. Anything that we needed to change, they helped us troubleshoot, they helped us figure out anything that we were struggling with, and we were learning a lot of configurations that we’ve never done.”*

—Juanita Garcia, Vice President of Student Services, Southeast New Mexico College

### ADVANCED TRAINING

## Unlock the SIS + ERP potential through in-depth training

PREMIUM ADD-ON

Gain a deeper understanding of your SIS and ERP solution through instructor-led training sessions and access a comprehensive library of resources that streamline solution adoption and boost your confidence when using Anthology Student and Anthology® Finance & HCM.

- Access Anthology Academy resources and on-demand content
- Explore technical configuration and user management guides
- Engage with educational specialists for solution onboarding and ongoing guidance
- Enable a seamless solution adoption and enhance efficiency

**ENHANCED FINANCE**

## Leverage Anthology Finance to align your annual budget planning with your strategic goals

[^ PREMIUM ADD-ON](#)

Implement Anthology Finance's budget planning feature to effortlessly create and maintain budget plans, workflows, policies, and procedures that allow for better spend-monitoring and forecast-adjusting.

- Receive guidance and control on formulation of budget policies and procedures
- Collaborate on the development and maintenance on commitment accounting policies (encumbrances)
- Implement best practices for effective budget planning through Finance

**ENHANCED HCM**

## Foster productivity, payroll accuracy, compliance, and employee engagement

[^ PREMIUM ADD-ON](#)

Implement Anthology HCM's time capture feature to enhance productivity and support compliance processes while driving cost savings in your workforce management.

- Leverage HCM to manage calendars, time periods, timesheets, and other time workflows
- Create and administrate an employee benefits program
- Reduce administration burdens, foster transparency, and improve employee engagement

**MANAGED SERVICES**

## Drive operational efficiency by partnering with Managed Services to excel in your day-to-day operations

[^ PREMIUM ADD-ON](#)

Unlock the full potential of your SIS + ERP solution by collaborating with experts on leveraging Anthology Student features and functionalities, configuration maintenance, and solution optimization within your core business processes.

- Gain a deeper understanding of the effective use of our solutions on daily operations
- Optimize processes, increase productivity, and reduce duplicate work and cost by combining efforts to maximize solutions' functionalities
- Secure ROI through maintenance of existing configurations and deployment of new solution features
- Rely on our expertise instead of having to hire, train, and manage more staff
- Work with an application administrator to receive ongoing end-user support, training, and solution optimization
- Work with an Anthology technical account manager to receive hands-on technical guidance on your development and institutional (technical) resources

*"I can't stress enough how critical the Managed Services team is to our college. Anthology's application administrator is fully integrated into our environment, ensuring relational data integrity across all of our departments."*

—Matthew Weitzel, IT Project Manager, Rocky Mountain College of Art + Design

**COMPLIANCE AND REPORTING****Streamline and automate reporting needs to meet compliance requirements** [^ PREMIUM ADD-ON](#)

Trust Anthology to help meet compliance and other complex regulatory commitments. Our team of data and analytics experts can help minimize the effort and alleviate the pressure of state and federal reporting while ensuring transparent and accurate data gathering and best practices that help protect you from legal risks.

- Facilitate state reporting efforts, making it a simple and easy process for your team
- Support transparency and accountability to stakeholders and maintain reputation, trust, and sustainability

## Anthology Services: Unmatched education and technology expert insight

Anthology in-house subject-matter experts with hundreds of academic and professional experiences are ready to help you address strategic, operational, technical, and pedagogical challenges, accessing our unique and industry-leading consultant network.
